

Building America's Most Advanced Video Surveillance Networks

Introducing MeshCam 3G™ – the world's first low-cost wireless IP camera system specifically engineered for 3G cellular networks!

- *Ideal for temporary setups without a local internet connection*
- *Plug-and-play Verizon™ 3G backhaul*
- *Ultra-efficient Mobotix™ MxPEG compression*
- *Secure worldwide VPN access for camera viewing*
- *2.4 or 5.8 Ghz local-area networking allows you to easily add wireless MeshCams™ or laptops*
- *48-volt POE, draws under 7 watts for easy Sunwize™ solar-power compatibility*
- *Indoor or outdoor operation (IP65)*
- *Visible LED array for antenna setup*
- *Supports omni and directional antennas*
- *Fully compatible with all Qorvus wireless mesh devices*

Production: May 1, 2009

• Operating System	Qorvus Qcode 4.5 Linux
• Processor Specs	800Mhz Geode
• Memory Information	128M SDRAM, 256M Flash
• Networking Interface	3G, 2.4 or 5.8 OFDM
• Approvals	FCC Part 15.247, IC RS210
• RoHS Compliance	YES
• Antenna	Hirose, Type N bulkhead
• Power Supply	48 V POE (included)
• Operating Temperature	-40C to +70C

MeshCam 3G™ technology is utilized on the Viewscan™ trailer

Available only via authorized Qorvus partners. For more information please visit www.qorvus.com or call 800.757.1571
